WHY CHOOSE US?

- Our people are at the core of everything that we do and as such we strive to develop a culture which harnesses talent and allows it to develop. We consider the needs, motivations and aspirations of our staff to create an environment where industry norms can be challenged through innovation.
- We ensure our training is relevant, engaging and informative. Our Veteran Scheme offers an open platform for attendees to gain experience and knowledge from fellow colleagues as well as the right qualifications for you to succeed in your career.

PHD Access understand that changing career can be difficult, and to be a truly good manager or director, you need to know exactly how to do the small stuff. This is why we have developed our new Veterans Scheme especially for military leavers and reservists.

The scheme offers you the on-the-tools experience needed, alongside gaining the right qualifications to build your second career.

The Veterans Scheme is broken down into two parts and is based in central London, and in their Head Office in Uxbridge. During the first segment, interested candidates will develop their experience in the construction industry as an apprentice scaffolder. These two years presents the opportunity to learn terminology, familiarise yourself with equipment and gain on-site knowledge, along with attaining the NVQ Level 2 in Scaffolding and Accessing Operations and Rigging.

On completion of the apprenticeship, applicants have the opportunity to work within various areas of the business, including site management, quantity surveyors and project management to discover which career they would be interested in. During this time, you will be enrolled on a managerial training programme concentrating on the key components of the business such as operations, commercial, safety and design.

Each candidate who completes the Veteran Scheme is given a guaranteed interview for a role within PHD Access.

ARE YOU INTERESTED?

To apply for this role, log on to CTP RightJob and search for Job ID [N318830](#). For further information, email info@phdaccess.com with the title: Veterans Scheme.
